DETAILED ACTION

The following is an examiner's statement of reasons for allowance: The prior art made of record did not disclose or suggest an infusion set comprising the combination of limitations recited in claims 1 and 23. The applicant's arguments filed on 7/29/2011 are considered persuasive in distinguishing the claimed limitations over the cited prior art. The claims require an arm that moves in a laterally inward, laterally outward, and in an upward direction away from the base such that movement of the arm in any of the recited directions allows for disengagement between the base and connector. The examiner's interpretation of this limitation is that the device needs to be capable of disengagement by movement in any of the three directions and not just in one direction. Bowman clearly discloses disengagement by movement in only a laterally inward direction and therefore does not anticipate the claim. There is no teaching or motivation to cure the deficiency of Bowman.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to THEODORE STIGELL whose telephone number is (571)272-8759. The examiner can normally be reached on M-F 8:30-5:00.
